

FACTS YOU SHOULD KNOW ABOUT DENTAL INSURANCE

Dental insurance is rapidly playing a larger role in helping people obtain dental treatment. Since we strongly feel our patients deserve the best possible dental care we can provide, and in an effort to maintain the high quality of care, we would like to share some facts about dental insurance with you.

Fact #1: Many plans tell you (the insured) that you will be covered “up to 80% or 100%” but do **NOT** clearly specify plan fee schedule allowance (contracted fee) or charge our office fees, annual maximum, limitations/guidelines, deductible or pending claims. We have found that most plans do **NOT** guarantee payment until services are rendered, and claims have been reviewed. **Payment at date of service is NOT FINAL but an ESTIMATE, final payment decision is made by YOUR insurance and NOT our office!!!**

Fact #2: The insurance company does **NOT** acknowledge differences in treatment from one provider to another. Fees vary from practice to practice. Please call the provider’s office for **their** fees on any final restorations.

Fact #3: Dental insurance is **NOT meant to be a pay-all, it is meant to be an aid**. In fact, yearly dental insurance maximums have not changed since dental insurance was introduced in the mid-1970’s. Premiums, however, have continued to rise!

Fact #4: The amount your plan pays is determined by **how much YOUR employer paid for the plan**. The less paid for the insurance, the less you’ll receive in benefits. Remember, you get back only what your employer puts in less the profits of the insurance company.

Fact #5: Insurance carriers do **NOT** cover many consultations/ evaluations as they would routine exams. We want you to be comfortable in dealing with these matters and we urge you to consult us if you have any questions regarding our services and/or fees. If you have any questions regarding your insurance, we ask you to contact **your employer and insurance company** regarding the specifics and details of your plan.
